what to study

Hello! As your GNIOT AI Student Support Assistant, I am here to help you plan your preparation.

Based on your upcoming exam schedule, you should focus your studies on your subjects in chronological order of the exams. Here is your study roadmap:

- Artificial Intelligence** (Exam: **August 18, 2026, at 10:00 AM**)
Priority: High. This is your very first exam, so you should start preparing for

4. **Software Engineering** (Exam: **August 24, 2026, at 02:00 PM**)

Priority: Medium. This is your final exam, and with 88% attendance, a structured review of the core concepts closer to the date will keep you on track.

A quick administrative reminder:

Once your exams conclude, please remember that your pending fee of **₹25,000** is due by **August 25, 2026**.

Best of luck with your studies! Feel free to ask if you need anything else.

foundation!

2. **Machine Learning** (Exam: **August 20, 2026, at 02:00 PM**)
* **Priority:** **High**. This is your second exam. *Tip: Since this is your lowest attendance subject (82%), you may want to allocate some extra time to review any lecture notes or topics you might have missed.*

3. **Cloud Computing** (Exam: **August 22, 2026, at 10:00 AM**)
* **Priority:** **Medium**. You have a solid 91% attendance in this subject, which is excellent. A quick, thorough revision should set you up for success here.

4. **Software Engineering** (Exam: **August 24, 2026, at 02:00 PM**)
* **Priority:** **Medium**. This is your final exam, and with 88% attendance, a structured review of the core concepts closer to the date will keep you on track.
